

Lucky

311

I'm takin' to the bridge and there's a different country
I'm bringing with me the people I know deep down are funky
 Oh yeah, we damp we got the juice it's on tap
 Never take the time to rewind all the weak crap
 Here take it it's yours the gift is calling
 The sunshine be falling our way first every morning
 I'm a magician you see I'm christened with condition
 Held over from a future would I've come to you so listen
 There's a place out in deep space
 Where all the brothers chant and dance and rant
 And shave their heads like Buddha
 I'm a fly guy you know I'm smoother
 Of course no remorse is felt for all those loser crews
 I do not care what you do, I always screw up
 But when I do it's nothing like you, I wish you grew up
 You're saying anything like promise to get clean
 Won't kick half dead you fucked up in the head
 Just get him out of here, get him out of here
 Get him out of here, he's making me sick
 We push a sucker out with much force and much clout
 Didn't want to do it that's not what were about
 But we got to have a limit
 How low can you get it
 Seems about time to change the subject
And sing about the wise eyed girl that makes me feel good
 And never do I leave misunderstood
 Oh, [Incomprehensible] feel it
 I know you feel good too
 You got a choice of what you gonna do
 It's like this, that [Incomprehensible]
 Mix a melody with some back chat
 Tell 'em again how can you feel it
 I know you feel good too
 You got a choice of what you're gonna do
 It's like this that [Incomprehensible]

 Mix a melody with some back chat
I'm rollin' slow no particular place to go so nothings changed
 The more things stay the same

The more it doesn't matter to a latter day St. Bernard acting hard
But I throw down like a crazy retard
But what cold make a man
Wanna walk around the school yard with his tool hard
What could make the switch to call a girl a bitch
It probably downed when you couldn't get a date to the prom
And you were stuck with Bea vis
Let's leave us on a note of positivity
I'm saying this for levity
But if I leave it brief I call it brevity
I said I see the people rocking
Which means there's no stopping the flow
And you can just tell 'em that you know
Every night yeah we turning up and comin' off live
Like and final 311 battle breakin' idols
On the one you never heard before
You know the hardcore rockin', pumping the dance floor
Leave ya feet sore lookin' for your Mica tin
You know the mic is deadly in the mood we in
Certified not fakin' cool like a Jamaican
Every time the enemy hear us they will be shakin'
I know you feel good too
You got a choice of what you gonna do
It's like this, that [Incomprehensible]
Mix a melody with some back chat
Tell 'em again, yeah
I know you feel good too
You got a choice of what you're gonna do
It's like this, that [Incomprehensible]
Mix a melody with some back chat
