

To A Party

Slightly Stoopid

To a party the other night
Yeah just to see another fight
All this violence it just aint right yeah
Come on party people lets unite
You'll see, were better off just you and me
You'll see, come and dance with me
Whoa oh
To a party where there is no fighting, yeah!
To a party where its goin' all right
To a party where it lasts all night
To a party where we all unite
You'll see, get up and dance with me

You'll see, just get.... (fades out)
They're called slightly stoopid
They fuck shit up
With the ska and the reggae
Go bust a turn punk
Get off my fuckin'
Get off the stage
The drummers so skinny
