

Pumpkin

Arrah and the Ferns

Pumpkin
You're hollow within
More how I'm too slowly
Let their harm
Give us some. It's sad until
Like flowers untamed
Shine out ends
I find what will make him love me
Life is our find
Hollow is he. I can't breathe and I can't see
MTV moves too fast, I refuse to understand
You go your way and I'll see mine. Feels like wasted time
And it feels like I must be blind
How'd you like yourself?
You don't know yourself. To a hollow kind, don't mind
Love is some of you
Don't dabble in fall of failure
How, how bad, ooh, ooh. I smell of her and I fail to be
Well anyway, well anyway, well anyway. See how high
Go on. I can't see, and I can't breathe
I can't see, and I can't breathe
I can't see, and I can't breathe
Well anyway, well anyway
