Secret Information

Daniel Antopolsky

Cleopatra wooed the big go getters
Wore their nineteen-fifty high-school sweaters
I can see miles and miles of you
I can see miles and miles with you
Even God's smilin' too when you smile, when you smile

The Roosevelts and Rockefellers
The Rembrandts and the gizmo-sellers
They would do anything for you, they would do anything for you
They would turn water blue for your smile, for your smile

Secret information: I love you but I don't control you
Secret information: without you I breakdown with a rockin' pneumonia

Pink panther wrote the big bestsellers
When he said he liked the jungle better
He would give anything for it to thrive
He would give anything for jungle jives
He would give anything to keep that jungle alive

Walkin', talkin' and fallin' down
Inside, outside, clownin' around
Charley Chaplin had qualities
Charley Chaplin had qualities
And his greatest of qualities make us feel just like a child

Secret information: I love you but I don't control you
Secret information: without you I breakdown with a rockin' pneumonia

Betty Davis and Beau Clark gable
Screen idols moved on to fable
They would set any stage for you
They would play any role with you
They would see the stars shinin' through your smile, through your smile

Secret information: I love you, I love you but I don't control you
Secret information: without you I breakdown in a rockin' pneumonia woh!

I can see miles and miles of you
I can see miles and miles with you

Even God's smilin' too when you smile, when you smile

And I would do anything for you
I would do anything for you
I would turn water blue for your smile, for your smile
