

Little Bit of Feel Good

Jamie Lidell

Just the sound of your voice
Drowning out, out all my noise
When you call my name mysteriously
All the source to let me see Little bit of feel good goes a long way
I need your touch to get me through my day
Watching you sleeping I pray
Please don't make my feel good go away Just a look of those eyes
Cutting through my smoky skies
And the parts of me that grow from you
Cleared my vision so that I could see Little bit of feel good goes a long way
I need your touch to get me through my day
Watching you sleeping I pray
Please don't make my feel good go away Just the smell of your hair follows me everywhere
Your sweet alchemy turned trouble to gold
Transforming it all to let me know A little bit of feel good goes a long way
I need your touch to get me through my day
Watching you sleeping I pray
Please don't make my feel good go away A little bit of feel good goes a long way
I need your touch to get me through my day
Watching you sleeping I pray
Please don't make my feel good go away
Don't go away, don't go away Please don't make my feel good go away
Please don't make my feel good go away
Please don't make my feel good go away
Please don't make my feel good go away
Please don't make it go away
