

Nobody Does It Better

Pixie Lott

We've been working all week,
and no we're not gonna sleep.
We wanna go somewhere,
and I hope you'll be there.
I tell you nothing competes,
When were running the streets.
I wanna go somewhere,
and I hope you'll be there.
Just for tonight no one else will be telling you,
where to go, who to be -
you can be who you want to.
Every beat has a voice and it's calling you,
no one else feels the way -
the way we do.
Centre of the universe,
everyone spins 'round us.
No matter where we go,
yeah you know.
We start and the whole world stops,
everyone is watching us.
We're doing it just because,
Nobody does it better.
Get up, get up feel my heat
we're losing it to the beat.
All of us is all we need,
Nobody does it better.
Nobody does it better,
nobody does it,
N-n-n-n-n nobody does it better,
nobody does it better.
Smiling faces erase every trace of blue,
see the boys watch the girls-
as we start to move,
Nothing's as good as being here;
with the ones you love,
Nothing wrong what we can do
we gottem outta stress
Centre of the universe
everything spins 'round us

No matter where you go,
yeah you know.
We start and the whole world stops,
everyone is watching us.
We're doing it just because -
Nobody does it better.
Get up, get up feel my heat,
we're losing it to the beat
All of us is all we need
Nobody does it better.
Nobody does it better,
nobody does it,
N-n-n-n-n nobody does it better,
nobody does it better.
Bring your body here,
run your hands up through my hair
I don't care if people stare,
oh, your touch will take me there,
Well i love the summer time,
But its leaving us behind,
Don't you wish we could rewind,
bring it back one more time.
We start and the whole world stops,
everyone is watching us.
we're doing it just because -
Nobody does it better.
Get up, get up feel my heat,
We're losing it to the beat,
All of us is all we need
Nobody does it better.
Nobody does it better,
nobody does it.
N-n-n-n-n nobody does it better,
nobody does it better.
Nobody does it better,
nobody does it.
N-n-n-n-n nobody does it better,
nobody does it better.
