

Somedays

The Waifs

Somedays are just like this
Somedays i can't get my ass out of bed
Somedays it just drag on and on and on yeah
And one day, one day, it can feel like a whole life time

Somedays i feel like god himself smiling down upon me
Somedays i swear to god the devil got my soul
Somedays i fall into that darkness and
Somedays i crawl from that hole

Somedays, Somedays

Somedays i just wanna ditch my responsibilities and leave behind
Dirty dishes, dirty floors
I got a man and i got family who love me well, its just
Somedays i gotta ask what the hell's it all for

Somedays i just want to walk into the wilderness, solitude, well
It puts my mind at ease
I figured god is out there somewhere,
Somedays i need something to believe

Somedays, somedays, somedays

Somedays I'm leaning on my twelve step programme
Meetings and testimony get me through
Most days i got a drink in my hand
Cause most days i can't stop thinking about you

Somedays are like this, dragging my feet on the ground
Somedays i feel like a lost time
These are the days i wish you were still around
I wish you were still around
