For the Girls

Jody Watley

Gettin' ready to do the town
My baby soon will be coming round
A long week has come to an end
no time to hang out with my friendsSo wine me and dine me
Treat me like a lady, yeah
It's time to forget the boys
(you know why)It's for the girls
This one is for the girls
It's for the girls
This one is for the girlsI've worked hard for everything I've got
and by the weeks end I need alot
of loving and real fun times
so make it worth my whilewine me dine me
make this a night to remember
Let's make it special
(you know why)It's for the girls
This one is for the girls
It's for the girls
This one is for the girlsfor the girls.....for the girls.....for the girlsSo wine me and dine me
Treat me like a lady, yeah
It's time to forget the boys
(don't cha know)It's for the girls
This one is for the girls
It's for the girls
This one is for the girlsrepeat
