

Seize the Moment

Weaselhead

I look into your eyes
I can see the pain
that drove you insane
another time
a place way back when you were young
and under the gun

and I can feel you and see you and love you respect you
and I can hear you so near you I do understand you

tonight
weâ€™re going to seize the moment
we donâ€™t care what they might say
weâ€™ll make it all go away

I listen to your voice
it always made me feel
like you were so real

you were just a child
they took it all away from you
thereâ€™s not much more to say

and I can feel you and see you and love you respect you
and I can hear you so near you I do understand you

tonight
weâ€™re going to seize the moment
we donâ€™t care what they might say
weâ€™ll make it all go away
