

# What I Don't Know

Dwight Yoakam

What I don't know might not hurt me  
If I stay dumb and no one tells  
But if I find out that you've been cheatin'  
What I don't know might get you killed  
Death row in prison don't look half as bad  
As a life filled with heartache over you  
So if you're a playin' those dirty little games  
You better pray that I don't find out the truth  
What I don't know might not hurt me  
If I stay dumb and no one tells  
But if I find out that you've been cheatin'  
What I don't know might get you killed  
Smith and Wesson juries hold a real mean, nasty court  
And the verdict that they pass is never slow  
So keep on a wearin' that little poker face  
'Cause soon enough your cards will have to show
