Sick

Adelitas Way

I'm so sick of me being sick of you
And the way you look, all the things you do
You drive me crazy, drive me crazy
Sick of being broke, can't pay the share
I'm about to snap, I can't handle that
I'm going crazy, going crazy
If you're sick like me, there's no stopping now
Try to break it up and just let it out
If I was sick like you, I would feed the fire
I would light it up then watch it all drop down
I'm so sick of my life it's the same old shit
Try to make it bend but it never gives
Look what you made me, what you made me
Well, I hate my boss, he's a little bitch
If he keeps it up, I'll make him quit
Or I'll go crazy, I'm going crazy
If you're sick like me, there's no stopping now
Try to break it up and just let it out
If I was sick like you, I would feed the fire
I would light it up then watch it all drop down
Then watch it all drop down
I'm so sick of me being sick of you
And the way you look, all the things you do
You drive me crazy, drive me crazy, yeah
If you're sick like me, there's no stopping now
Try to break it up and just let it out
If I was sick like you, I would feed the fire
I would light it up then watch it all drop down
If you're sick like me, there's no stopping now
There's no stopping now, watch it all drop down
If you're sick like me then you're sick like me
