Nothing Left to Lose

Nick Carter

I know, I know
I climbed the highest mountain
Was on top of the world
Then I came crashing down
All the fame and fortune
Turned to dust and dirt
Couldnt turn it back around
Many days felt helpless
Many nights full of sadness
Maybe its meant to be[Chorus]
I got nothing, nothing left to lose
I got freedom, but most of all, you
We got love and we got time
If we just remain on each others hearts
We could leave it all behind
And start anew
As long as I got you
As long as I got youNo more front page stories
No more making up lies
Turning my life around, life around
No more cameras flashing
Blinding my eyes
I can see clearer now
Oh, cause Im still breathing
Its a new beginning
Baby its meant to be[Chorus]
I got nothing, nothing left to lose
I got freedom, but most of all, you (oh)We could be anything we want
Just let go in each others arms
No more lonely nights in dirty hotel rooms
We got love and we got time
If we just remain on each others lives
We could leave it all behind
And start anew
As long as I got youAnd the rain wont stop me
And the cold wont scar me
And nobodys gonna hold me down[Chorus]
I got nothing, nothing left to lose
I got freedom, but most of all, youWe could be anything we want

Just let go in each others arms
No more lonely nights in dirty hotel rooms
We got love and we got time
If we just remain on each others lives
We could leave it all behind
And start anew
As long as I got you
As long as I got you
As long as I got youAs long as I got you
