

I Can't Forget (feat. Anita Kerr Singers)

[Patsy Cline](#)

I can't forget you, I've got these memories of you
I can't forget you, I'll always be loving you Once we were happy, we were so carefree and gay
Then something happened and you went away I can't forget you, please tell me what must I do
My memories haunt me because I'll always love you Where are you darlin'? Are you with someone new?
I can't forget you, I'll always be loving you I can't forget you, I've got these memories of you
I can't forget you, I'll always be loving you I can't forget you, please tell me what must I do
My memories haunt me because I'll always love you Where are you darlin'? Are you with someone new
I can't forget you, I'll always be loving you
