

Part of Me (Acoustic)

[Kelley Jakle](#)

How do I look back across the years
Without the imposter smile?
How do I recount the laughs, the tears
Without knowing it all was worthwhile?
I've had hopes and dreams to share,
You've helped me believe they'll come true
You can count on me being there,
'Cause I've grown up with you

Where would I be without love in my life
To help me know who to be?
Wherever I go I can't leave you behind
You are a part of me

I don't think I realise
How life will be when you're gone
So here's to the times we weren't so wise
But managed to still get along
I don't know what the future holds
What life will bring past today
There's nothing I'd change, even if I'd known
That it would be this way

Where would I be without love in my life
To help me know who to be?
Wherever I go I can't leave you behind
You are a part of me

They say don't look back
But the past is all I see
The memories we share
Lead me to believe

You'll always be a part of me
