

# Time to Kill

[Sophie Zelmani](#)

For your own good  
For your demons  
For your husband  
For your son  
For love, for love A life on prayers  
You will be coming back to us  
For better days  
Better days If you are just  
Nights and days  
If you're just hears a way  
If your time really stand still  
We just have time to kill  
Time to kill Against our will  
Against all respect for faith  
Against all sense  
Against love, against love We are locked out  
From your secret place  
For love, for love But if you are just  
Nights and days  
If you're just hears a way  
If your time really stand still  
We just have time to kill  
Time to kill If you are just  
Nights and days  
If you're just hears a way  
If your time really stand still  
We just have time to kill  
Time to kill
