

# We Go On

Billy Gilman

Deep in the valley of your soul  
Tired of worries you can't control  
With so many mountains left to climb  
Unanswered questions left to find  
We go on, we go on  
It's the first lesson learned when you're born  
On the wings of Angels, we ride out the storm  
You and me, we go on  
Pull a stranger from the water  
And in that moment he's your brother  
There's a gift when you receive him  
Love is the greatest reason  
We go on, we go on  
It's the first lesson learned when you're born  
On the wings of angels, we ride out the storm  
You and me, we go on  
Faith happens when you can't see  
Against all odds you believe  
We go on, we go on  
It's the first lesson learned when you're born  
On the wings of Angels, we ride out the storm  
You and me, we go on, we go on
