

STD Dance

Ima Robot

Freedom's the source of the lightning sparks when you're dancing
Freedom's the shine, let it peal your mind when you're dancingFreakin' out in (on) the sun

This is time on (on) the run
This is life that tear me down

This is life this Sunday kite

That's life with anything,

Girl just start pretending

You're the stuff

You're the mind

Just get on down

Stop the timeThis Saturday night

Appetite

This is what you can be

Somethin' like

Dynomite

This is what you can be

Do it right

Escalate

This is what, like candy

Oh, you're so good

You're so good

You're so good

You're so...Freedom's the shine, let it peal your mind when you're dancing
Freedom's the shine, let it peal your mind when you're dancingJust show me you're love

Just show me you're love

Hey, just show me you're love

Just show me you're loveSpotlight

Blue suede shoes

Give a fuck

Attitudes

Hot night

What to do

Run down mansion

Laural canyon

Kill your time

Genocide it

Warpin' space

Back to grace

Hey, take your place

Do the movement

You'll kiss bliss

When you are ruin

Connecting things

Connecting bings

Unified front

Expanding sun

Toasted

Before you know it

Let go

That soul you're holdin'

Pressure builds

Now you're exploding

Flashin' light

Bliss tonight

Pressure builds

Now you're exploding

Out your mind

Out of sight Freedom's the shine, let it peel your mind when you're dancing

Freedom's the shine, let it peel your mind when you're dancing Just show me you're love

Just show me you're love

Hey, just show me you're love

Just show me you're love Freedom's the source of the lightning sparks when you're dancing

Freedom's the shine, let it peel your mind when you're dancing

Freedom's the source of the lightning sparks when you're dancing

Freedom's the shine, let it peel your mind when you're dancing Just show me you're love

Just show me you're love

Hey, just show me you're love

Just show me you're love La-da-dee-down Freedom's the shine, let it peel your mind when you're dancing

La-da-dee-down
