How I Needed You

Puggy

Safe from them all
Those evil little motherfuckers at my door
Yeah, well I've kept score
And I believe they owe me more than life is shortDo you remember when nobody knew me?
Man, was life so simple then
But you knew my name and Lord knows
It will never sound the same againI will stay with you
I will stay with you
I will stay with you
How I needed you
How I needed you
How I needed youI needed you
I needed you
I needed youWell, a long time ago
That night we had was my only claim to fame
Yeah, we were only friends
And girl, you took away from us our happy endSo I will stay with you
I will stay with you
I will stay with you
How I needed you
How I needed you
How I needed youYou've taken from me everything in the world
I needed you
I needed you
I needed you
I needed youI hate you more than I hate everything in the world
Well, I do, I said, I do
You've taken from me everything I deserve
Well, it's true, yeah, it's trueI hate you more than I hate everything in the world
Well, I do, well, I do
You've taken from me everything I deserve
Well, it's true, well, it's trueYou've taken from me everything in the world
I needed you
I needed you
I needed you
I needed youI will stay with you
I will stay with you
I will stay with you
How I needed you

How I needed you
How I needed you
