Dark Lonely Street

Billy Forrest

Mmm... mmm ... mmm, this dark lonely street
Here am I, I walk alone, I have no love of my own
Now each shadow I pass is my looking glass
On this dark lonely street

I'm in love with the dream, of a girl I've never seen
Out of reach, out of sight, will I find her tonight
On this dark lonely street
Is my love just pretend, will this dream never end

Maybe this cigarette, will help me to forget
This dark lonely street
Mmm... mmm... mmm, this dark lonely street
