

# Peterborough And The Kawarthas

## Barenaked Ladies

I left you in the rain  
Peterborough and the Kawarthas  
Your reflection in the pane  
Peterborough and the Kawarthas Apples, pears, prunes, and plums  
His favorite food, I told his mum  
Wait for him at the end of the slide  
When he climbs the stairs, stay by his side I heard you got some rain  
Peterborough and the Kawarthas  
Looks like we're in for the same  
Peterborough and the Kawarthas I'm going early, won't wave good-bye  
Tell him I love him; look him in the eye  
I've learned how to mourn; I've learned how to miss  
Let me disappear with this kiss "Tuesday  
A mix of sun and clouds  
With a forty percent chance of showers  
Early morning then sunny  
Wind west twenty kilometers an hour  
Gusting to 44  
High of 22  
UV index 50 and moderate "Bird, book, and basketball  
Squirrel, dog, and learning how to crawl  
I found my heart when he came  
Let my leaving leave like rain I watched you from the train  
Peterborough and the Kawarthas  
When I come back I'll see you again  
Peterborough and the Kawarthas I'll listen for you every morning  
I'll listen for you every morning  
I'll listen for you every morning  
I'll listen for you every morning
