

Beast in Peace

Bear In Heaven

Looks like you know what you want
So let go and look over the horizon
Your pirouette will go around the world
Your pirouette will show you the outside
Silently
Coming Home
Silently
Coming Home
Don't bother leaving
We're already gone
True Thoughts retreating
Now it seems they're gone
Don't bother leaving
We're already gone
True thoughts retreating
Now it seems they're gone
Doomsday it's so quiet
You hardly know it's there
Dollars of the triumph
They're loaded down so well
Thunder is expanding
Like your face into the ground
Thunder is expanding
And the rate will wear you down
The best times were better
When you didn't need to think
The eagle or monster
Is pulling down our feet
Let's chase it all we caught
The beast we are free
And don't bother leaving now
We're already gone
