

# Calypso (Rarities & B-Sides)

## Chris Brown

Don't need ya name girl, don't need your number  
This might seem strange but can't help but wonder  
What it would be like just to be with you  
Don't need to move fast, just wanna think it through  
Like how you hold me and what you told me  
Girl you don't even know me  
Babe what you tryna' do?  
Cause everytime I'm looking in your eyes  
Got me thinking 'bout you, wanna take you home  
We need to be alone tonight  
Tell me what you want, I wanna find out what you like  
You make me say oooh  
Just wanna love youuu  
Don't know what you dooo  
Just looking at youuu  
You make me say oooh  
Just wanna love youuu  
Don't know what you dooo  
Just looking at youuu  
I love the way you move, we're on the right track  
Don't be a stranger, gal bring that ass back  
Know who ya came with and I ain't tryna' take his place  
But you thinking 'bout leaving with me  
It's written on your face  
Like how you want me, how your body calls me  
Girl you don't even know me  
Babe what you tryna' do?  
Cause everytime I'm looking in your eyes  
Got me thinking 'bout you, wanna take you home  
We need to be alone tonight  
Tell me what you want, I wanna find out what you like  
You make me say oooh  
Just wanna love youuu  
Don't know what you dooo  
Just looking at youuu  
You make me say oooh  
Just wanna love youuu  
Don't know what you dooo (baby I mean it)  
Just looking at youuu (you know I ain't playing)

Oooh let me and you dance tonight  
And ain't nobody else but me and you girl girl  
My hearts involved this time  
Don't know what it is but you make me say oooh  
Oh girl girl  
Just wanna love love girl yeah  
You make me say oooh  
Just wanna love youuu  
Don't know what you dooo  
Just looking at youuu  
Yeah just wanna have you, wanna have you
