

Tell Me (feat. Cold Specks)

Moby

TELL ME

An examination a greeting in the night,

My hands are clean as bones

I am prone to fall gently into place.

Didn't I measure time,

I was always wide awake, in the night

Didn't I measure time,

I was always wide awake, in the night

Rise from your cold, cold bed,

Lay your hand to heat

I gave you madness,

Creep deeper, creep

Didn't I measure time,

I was always wide awake, in the night

Didn't I measure time,

I was always wide awake, in the night

London is still tonight - Wont you make me stay?

Keep your pretty eyes on the prize...

Ah ah ahhhh

oh oh ohhhhOh Alexander... bring you to your knees

Oh Alexander... bring you to your knees

Didn't I measure time,

I was always wide awake, in the night

Didn't I measure time,

I was always wide awake, in the night
