

# My Time

## Obie Trice

Got money on my mind no time for narcissist  
I am getting money watch the shine around here  
Price in the price up the level  
Johnny is on the feet catch him in the street  
20 on the . niggers made us . nigger still shading  
Even though we were over that dons stop my dollars from rolling over  
Im gonna put that product into my  
I am gonna be a problem for the world until this is over  
Pistol women . shutting like .bitches . they know . been this  
Heating up the plot with something very expensive  
Ice in his niggers paying attention  
. navigate the engine. foe haters trying to stick him  
Keep money till the day I am gonna trick them  
My label needs to clay off I am gonna get my rich in  
Double that dollar flipping  
Chorus  
Got money on my mind no time for narcissist  
I am getting money watch the shine around here  
Price in the price up the level  
Johnny is on the feet catch him in the street  
. you never catch him over me/beef?  
. that bitch twice I am gonna catch him over heat  
Money on my mind . on the crime .  
Its my time  
Jumping on the cars in and out the bars  
Spitting weed  
Show you how to floss show you by the bars  
You are all talk we notice your flows  
You are in lose we are married to the game  
You are all just a maid next to the maid  
I am spinning change since the dope game  
Made a name for himself after cocaine  
Call me . you can try to catch him  
Nope I got access no text messages  
. say no where the cash at  
. I see it dough  
I am gonna need it my nigger  
. lets go  
In and out the jets .  
Been around the world  
I aint finish yet  
.i poke like . in any country I ride in

With any code . you be the witness
