

# Thug Style

Ciara

You change the game  
I like your thug style Hey you it's me turn the music down  
So you can hear my invitation  
Now what I want you to do is come through the crib right now  
Without hesitation So don't ask me what I want  
'Cuz I want you to hurry up  
And get over here to see me  
Act just like you need me  
Hurry hurry hurry  
Got ten minutes Tick tock  
Where you at  
Looking at the clock it's about that time  
Knock knock  
There you is  
I've been waiting on you for a long long time  
Baby don't stop stop  
I don't mind if you make me hot hot  
'Cuz I'm gone keep your love on lock lock  
Lock ohh ohh yeah You change the game  
I like your thug style  
When I'm around you  
You always make me smile  
Make me so excited  
Come on don't deny me  
Ooh let's take our time  
Ooh let's do it right  
Ooh you changed the game I like your thug style Now my parents are gone  
And I can't believe it's me who needed to see you  
Nobodys home we can kick it all night  
I no that you don't have curfew Now don't move too fast  
But don't move too slow  
Baby catch the rhythm that I'm giving you  
Ooh I love the rhythm  
I'm feelin' you Tick tock  
Where you at  
Looking at the clock it's about that time  
Knock knock  
There you is  
I've been waiting on you for a long long time

Baby don't stop stop  
I don't mind if you make me hot hot  
'Cuz I'm gone keep your love on lock lock  
Lock ohh ohh yeah You change the game  
I like your thug style  
When I'm around you  
You always make me smile  
Make me so excited  
Come on don't deny me  
Ooh let's take our time  
Ooh let's do it right  
Ooh you changed the game I like your thug style Its that in thug in you  
That's got me wanting you like I do  
Baby now I can't wait for love  
I anticipate ooh  
Baby just tell your friends that you won't be with them tonight  
Baby it's you and me so put your hands up feel this ohh You change the game  
I like your thug style  
When I'm around you  
You always make me smile  
Make me so excited  
Come on don't deny me  
Ooh let's take our time  
Ooh let's do it right  
Ooh you changed the game I like your thug style [Incomprehensible]  
Ohh boy  
[Incomprehensible]  
That's right
