If You Love Me

[Van Morrison](#)

If you love me
You will give your heart
Why should we be apart
If you love meIf you love me
You will know the truth
I wasn't born to lose
And I love youAffinity and communication
That makes reality
Understanding is the first thing
It means so much to meIf I love you
I will find the key
If it's meant to be
'Cause I love youAffinity and communication
That is reality
Understanding is the first thing
It means so much to meIf I love you
I will find the key
If it's meant to be
'Cause I love you
