

Barrel Racer Land

[Kenny Feidler](#)

All she's gotta do is ride her horse and ... It's another great day to be looking that good In and out the arena she's hanging on the wood Perfume is so strong passed out and hit the can It's another great day in barrel racer land Got a roper for his money buys her lots a shit Got a roughy on the side when she wants some good dick Runs an Appaloosa pony chasing first placed prize Probly ain't the worst she's had between her thighs It's another great day to be looking that good In and out the arena she's hanging on the wood Perfume is so strong passed out and hit the can It's another great day in barrel racer land Got a kippys belt and five colored hair Fur on her boots and none down there Took outa couple panels when she finally broke Her horse is fuckin crazy got em tripping on coke It's another great day to be looking that good In and out the arena she's hanging on the wood Perfume is so strong passed out and hit the can It's another great day in barrel racer land Got a pleather saddle and a couple a bits No inhibitions and a set of fake tits Pounding down the liquor for the rodeos end Lost her front teeth fighting with her best friend It's another great day to be looking that good In and out the arena she's hanging on the wood Perfume is so strong passed out and hit the can It's another great day in barrel racer land Woulda coulda shoulda but she knocked down the third Ground was too deep and her horse saw a bird Musics to loud and the lights were to bright She'd a had the buckle if things had went right It's another great day to be looking that good In and out the arena she's hanging on the wood Perfume is so strong passed out and hit the can It's another great day in barrel racer land Well it's not an easy life on the barrel racing road Every now and then she takes a big load Cause you gotta turn and burn if you wanna be fast Turn rich men into poor men got rug burn on her ass It's another great day to be looking that good In and out the arena she's hanging on the wood Perfume is so strong passed out and hit the can It's another great day in barrel racer land Everyday's a good day in barrel racer land
