

# Untouchable, Part 2

## Anathema

Why I should feel this way [2x]  
Why I should feel the same  
Something I cannot say [2x]  
Something I can't explain  
I feel you outside  
At the edge of my life  
I see you walk by  
At the edge of my sight  
Why I should follow my heart [2x]  
Why I should fall apart  
Why I should follow my dreams [2x]  
Why I should be at peace  
I feel you outside  
At the edge of my life  
I see you.. walk by  
At the edge of my sight

I had to let you go  
To the setting sun  
I had to let you go  
And find a way back home  
I had to let you go  
To the setting sun  
I had to let you go  
And find a way back home  
(When I dream, I see you) [2x]  
I've never seen a light that's so bright [3x]  
Blinded by the light that's inside [2x]  
Blinded by the light that's inside you  
I had to let you go  
To the setting sun  
I had to let you go  
And find a way back home
