

Be a Man

City Sleeps

And so she dances in your crystal ball
The ballerina of the baby dolls
Under a spell, you only call her name
Only her answer can undo your pain
Her swirling hand is like a magic wand
It's gonna hurt this time, the fairy dust is gone
Be a man
Don't let her do that to you
Be a man
Don't let her do that to you
She's a bad girl, gets to cry all day
The darkness is the only place that you play
The broken veins from all your wounds are raw
You're not the only boy that waits for her call
Be a man
Don't let her do that to you
Be a man
Don't let her do that to you
Oh, well, she's on the dark side
Oh, well, and it will neutralize
Be a man
Don't let her do that to you
Be a man
Don't let her do that to you
Be a man
Don't let her do that to you
Be a man
Don't let her do that to you
