This Abyss

The Gothic Archies

You can try to block out the sun,
chances are it will rise in the morning.
You can hold your breath if you want.
what's meant to be, is meant to be.And after all this time,
try to deny but it's true.It will always be you,
there's no one else in the world
who can mess me up like you know you do.
Yeah it will always be you.
I'll take that down to the grave.I never signed up for this abyss,
thought I'd live on the back of a lie.
Always had my hand on the bright side.
What's meant to be, is it meant to be anymore.And after all this time,
try to deny but it's true.It will always be you,
there's no one else in the world
who can mess me up like you know you do.
Yeah it will always be you.
I'll take that down to the grave.And I'll take that down to the grave.
And I'll take that down to the grave.
And I'll take that down to the grave.It will always be you,
there's no one else in the world
who can mess me up like you know you do.
Yeah it will always be you.
I'll take that down to the grave.there's no one else in the world
who can mess me up
And it will always be you.
Yeah it will always be you.
I'll take that down to the grave.I'll take that down to the grave.
I'll take that down to the grave.
