Showdown

Britney Spears

Yeah
Sometimes I just love to have that out
Just something a girl's gotta do, ohNever thought I'd see you like this
You lookin' good when you're half dressed
Just let me give you one last test
Is that a sin? NoAm I too hot for you though
Did you check out my video?
There's some things you don't know
Like thisI dare you to stand in my way
Just give in when you are ready to play
Like thisHere comes the showdown
What goes around comes around
And the crowds are waiting, oh
'Cause if we break up, then we can make up
Shake my body all night
Here comes the showdown, ohI don't really wanna be a tease
But would you undo my zipper please?
Please don't talk
ListenI'll let you touch me if you want
I see your body rise, rise
And when you come, don't get too hot
ButterflyI dare you to stand in my way
Just give in when you are ready to play
Like thisHere comes the showdown
What goes around comes around
And the crowds are waiting, oh
'Cause if we break up, then we can make up
Shake my body all night
Here comes the showdown, ohForget the tension when we fight
We'll make it up turn down the light
It's just a lover's game we play, yeah
After the screaming's at an end
Why don't we do it all again
That's when the fun really begins ohHere comes the showdown
What goes around comes around
And the crowds are waiting, oh
'Cause if we break up, then we can make up
Shake my body all night
(Why don't you?)Yeah

Yeah
YeahHere comes the showdown, oh
Here comes the showdown
What goes around comes around
And the crowds are waiting, oh
Here comes the showdown, oh
