

# What I Believe

Nate Sallie

This morning they came in to tell me  
That I had a choice to make  
Rechecked all the things I believed in  
Or in their prison I would stay They said that my wife wants to see me  
And back home my family awaits  
I fell down my knees and surrendered  
But Your grace gave me strength to say You can take away my freedom  
You can take away my human rights  
You can take away my family  
Everything you see, even take my life But you can't take away what I believe  
The spirit go inside of me  
'Cause love is [Incomprehensible] free, let them do all things  
To the one who rests on me, you can't take away what I believe It's been twenty years since I came here  
And now the end is so near, yeah  
My wife's gone on before me  
My vision of heaven oh, so clear It told me that I'd never make it  
The strain on my heart far too great  
With faith I put pen into paper  
My holy allegiance to state You can take away my freedom  
You can take away my human rights  
You can take away my family  
Everything you see, even take my life But you can't take away what I believe  
Spirit go inside of me  
'Cause love is [Incomprehensible] free and I can do all things  
To the one who rests on me, yeah In your hands You've rearranged me  
And everything that You say, I'll hold it true  
I see believers who have stood for truth  
And now I, I'm taking stand for You You can take away my freedom  
You can take away my human rights  
You can take away my family  
Everything you see, even take my life But you can't take away what I believe  
The spirit go inside of me  
Ooh You can take away my freedom  
You can take away my human rights  
You can take away my family  
Everything you see, even take my life But you can't take away what I believe  
Spirit go inside of me  
Ooh You can't take away what I believe  
You can't take away what I believe

You can't take away what I believe
