Replay It Again

Myles Nelson

I wake up with you gazing in my eyes
With no make up youâ€™re amazing I canâ€™t lie
Itâ€™s too early to leave out for work
But girl youâ€™re making my speakers chirp
Going off inside of my head
Every time that we brush our legs
With your music I donâ€™t need an alarm
Itâ€™s like Cupid knew just how to turn me on

Your hair up in a mess in the light
Our bare love canâ€™t stress goodbye
You got me in one hell of a bind
I ainâ€™t never felt a rush so right

Chorus:
Cos I ainâ€™t ever been a James Dean
But girl you got me in a flames heat
Molding our lips while Iâ€™m pressing your hands
Holding your hips undressing your plans
Yeah you got me in a day dream
Something hot like a date scene
Overwhelming you canâ€™t handle
Take it slow up your neck
Candles melting all around us
While our shadows steady dance
We can just lay here painting this bed
Or we can just stay here and replay it again.

Verse 2:
Forget the job and the boss Iâ€™m calling out
When all you have on is that cross falling down
Youâ€™re like a movie with form so angelic
Your timeless beauty is more than compelling
I love the feeling with your weight on my chest
And when you kiss me just to take away my breathe.
You got the key to my heart, push to start
How our song goes
Let me grasp all your curves

While we turn down the wrong roads.
