Cherry Coloured Funk

Cocteau Twins

Beetles and eggs and blues and pour a little everything else
You steam a lens stable eyes and glass
Not get pissed off through my bird lips as good newsStill being cried and laughed at from behind
Down far behind this fabulous, my turn rulesBeetles and eggs and blues and bells and eggs and blues
Beetles and eggs and blues and pour a little everything else
You steam a lens stable eyes and glass
Not get pissed off through my bird lips as good newsYou'll hang the hearts black and dull as the night
We hanged your pass and start being as you in ecstasy
(Still being cried and laughed at before)
Should I be sewn in hugged I can by not saying
(Still being cried and laughed at from light to blue)
And should I be hugged and tugged down through this tiger's masque
And should I be sung and unbroken by not saying
You mind not saying
