

I Can't Change the World

Heideroosjes

You tell me to conform but i won't
You tell me to shut up but i don't
You tell me it doesn't make sense
To me there is more than hangin out with friendsI can't change the world
But you'll hear my voice
Don't you think i see it's a mess?
Don't you think i hate all this stress
Why don't you just stand up and fight
I won't say it will help but i mightI can't change the world
But you'll hear my voiceIt seems i stand alone in a crowd
But i continue to open my mouth
If people don't talk anymore
They have started a new useless war
