Sunday Drive

Dean Brody

Honey, want to see What you, what you can be You, you make it easy For me to want to know you I can't pretend to hate you Cause I will always love you And when you try to leave me I wanna say Please don't go I need your love Waiting for the rain to behave So you come around Take me on a Sunday drive Please don't go I need your love Waiting for the rain to behave So you come around Take me on a Sunday drive Wait, to the end Who will you defend? See what I can do With this life That was made for two I can't pretend to hate you Cause I will always love you And when you try to leave me I wanna say Please don't go I need your love Waiting for the rain to behave So you come around Take me on a Sunday drive Please don't go I need your love Waiting for the rain to behave So you come around Take me on a Sunday drive I can't pretend to hate you Cause I will always love you

And when you try to leave me I wanna say Please don't go I need your love Waiting for the rain to behave So you come around Take me on a Sunday drive Please don't go I need your love Waiting for the rain to behave So you come around Take me on a Sunday drive
