

# Love Is the Answer

## Gandalf

Imagine you imagine me  
We could be happy we could be free  
If we could only try  
No more hunger no more greed  
Do you ever wonder can you believe?  
This world's for us to share  
'Cause I hope and I pray  
Open our hearts and show us the way I know love is the answer  
And fear serves only to bind  
Keep us all together  
We all belong in heaven above No more deception no more war  
And peace we would treasure for evermore  
No need to be alone  
'Cause I hope and I pray  
Open our hearts and show us the way I know love is the answer  
And fear serves only to bind  
Keep us all together  
We all belong in heaven above
