Uncomplicated

Brian McFadden

Uncomplicated that is what I am
A little bit jaded should have walked before I ran
Can't perform miracles but I'll do what I can
UncomplicatedI live my life for the simple things
I don't want a prize for getting in the ring
I'll do it anyway what have I got to lose
What you see is what you get
But there is a little bit more that you haven't seen yet
I've kept hidden away for a rainy dayI will always pledge allegiance to my family and friendsUncomplicated that is what I am
A little bit jaded should have walked before I ran
Can't perform miracles but I'll do what I can
UncomplicatedI'm not here to try and gain respect
But I appreciate all the breaks I get
I'm gonna cherish everyday like it's my last
I was taught to stay down to earth
And I think I've learnt what that's really worth
Am I telling you what you already knowCome on with me we can't live for ever
Let's make the dream come trueUncomplicated that is what I am
A little bit jaded should have walked before I ran
Can't perform miracles but I'll do what I can
UncomplicatedThe sun burning down through the trees
I'm having a moment that's so pure I'd like to freeze
So then I'd have it for another day
When I'm so far awayUncomplicated that is what I am
A little bit jaded should have walked before I ran
Can't perform miracles but I'll do what I can
Uncomplicated
