

Stay Young

We The Kings

Let's burn our dreams into the skyline
Tattoo our sweat in tears, forever you and I
Hold your breath till we cross the sundown
This is the moment, time is racing slow it down 'Cause you, a feeling I can't deny
We are only here for one more night
Scream it like you mean it
One more time we'll tear down the building
Come on, come on sing along, whoa
Come on, come on stay young Let's light the kerosene tonight
Spark up like fireworks exploding in the sky
Kick down the new year and the future
We can't get closer here, the walls are falling down 'Cause you, a feeling I can't deny
We are only here for one more night
Scream it like you mean it
One more time we'll tear down the building
Come on, come on sing along, whoa
Come on, come on stay young We'll be holding on to this so tight
Scream it like you mean it
One more time we'll tear down the building
Come on, come on sing along, whoa
Come on, come on stay young Feel my breath, I'm alive when we're side by side
Now this is dedicated to you Come on, come on sing along, whoa
Come on, come on sing along
Come on, come on sing along, whoa
Come on, come on We are only here for one more night
Scream it like you mean it
One more time we'll tear down the building
Come on, come on sing along, whoa
Come on, come on stay young We'll be holding on to this so tight
Scream it like you mean it
One more time we'll tear down the building
Come on, come on sing along, whoa
Come on, come on stay young
