Bullet WIth Your Name

Scars Of Life

As were sitting here staring each other down
you open up your mouth let your lies spew out
what are we doing here its wrong cant you see
you wanna leave me here, and forget about meYou look me, in my face
Tell me Im, a disgrace
you say that your the victim
I say your full of shitall the times you stuck me here
and put me on my own
I feel the same thats why
I've got a bullet with your nameAs were sitting here staring each other down
I remember how you used to kick me around
look deep in my eyes come take all my pain
I only have just one bullet with your nameYou look me, in my face
Tell me Im, a disgrace
you say that your the victim
I say your full of shitall the times you stuck me here
and put me on my own
I feel the same thats why
I've got a bullet with your nameI feel the same
GET THE FUCK AWAY!
yea awayLook deep in my eyes
come take the pain from me
all I ask of you
is to get away from meYou look me, in my face
Tell me Im, a disgrace
you say that your the victim
I say your full of shitall the times you stuck me here
and put me on my own
I feel the same thats why
I've got a bullet with your nameall the times you stuck me here
and put me on my own
I feel the same thats why
I've got a bullet with your nameyea away.....
