

# I'm So Ready

**Blanche Eden**

Im so ready

This ain't hard to see, I only see you and me  
Who would have thought we'd get this far?

Making plans together, I know its hard

Cause we've been scarred by the ones we love

I know sometimes it seems like I don't want this or like I don't care

But I'm telling you, Im telling

Im so ready

Chorus

All my life I've dreamed of this time

When I saw you I knew you'd be mine

I know I'm the one you love, my kisses they tell you

That Im the one for you, you, you

Im so ready

There were times I said for sure its over

We yelled, I cried, I left, you tried

We hurt each other, but we forgive

One another

I know I said some things and you said some too

But they're only words, our love, our love is what is true

Im So Ready

Chorus

My love is true

Im so ready

Im so ready, all my life
