

Believe

Lasgo

Get me out
Take anywhere but here [echo]
I had my doubts
But you made 'em disappear How you lied
Should have seen it all along [echo]
I won't cry
'Cause my faith's still going strong I wanna believe
I wanna believe there's more than you and me
I wanna believe that we weren't meant to be
I gotta believe there's someone there for me
You know I believe that love will set me free [echo] Let it be
Let it all go down to hell [echo]
Boy I've heard
All the stories that you tell [echo] I don't care
You look silly with your friends [echo]
Save your prayers
This is where the party ends I wanna believe [echo] [repeat] I wanna believe
I wanna believe there's more than you and me
I wanna believe that we weren't meant to be
I gotta believe there's someone there for me
You know I believe that love will set me free [echo]
