I Like The Way This Is Going

Eels

I like your toothy smile
It never fails to beguile
Whichever way the wind is blowing
I like the way this is going
I like the colour of your hair
I think we make a handsome pair
I can only see my love growing
I like the way this is going
I like to watch TV with you
There's really nothing, that I would rather do
Then maybe we can go to bed

Get up and do it all again
I like the way your pants fit
And how you stand and how you sit
Whatever seeds that you're sowing
I like the way this is going
I don't care about the past
None of it was made to last
It's not who you know, but who you're knowing
I like the way this is going
I like the way this is going
