Angry Tree

Life of Agony

I used to spend my time
And thinking I'll be fine
Murder isn't crime
And I witnessed you commit and smileRusty breeze
Let me in your casualty
Mellow leaves
You're falling from an angry tree, an angry treeAnd everybody is slipping over the edge
And everybody is
And everybody is slipping over the edge
And everybody isEveryday that's slipping
Come closer, the quicker to death
Drink up the magic potions
Now you see me in your head, oohRusty breeze
Let me in your casualty
Mellow leaves
You're falling from an angry tree, an angry treeCan you see the world I see?
Everybody slips including
Can you see the world I see?
Everybody slips includingCan you see the world I see?
Everybody slips including
Can you see the world I see?
Everybody slips including meAnd everybody is slipping over the edge
And everybody is
And everybody is slipping over the edge
And everybody is slipping over the edge
