It's Over

[Joi Cardwell](#)

Youre out of my life
Its OverWhen I walked in the room
It seemed like yesterday
Well its the night and the light
But the things just aint the same
I feel that you
Never really let me be
There you go again
Putting that blame on meTold you once
Told you twice
You never listened to me
Tried to keep
Our thing nice
You dont appreciate meWork my fingers to the bone
I brought that paper home
And thats why youre aloneYou told me its over
Its over
Over and out finally figured it out
When its over
Its over
Over and out finally figured it out
And youre out of my lifeI see you making promises
But things dont ever change
There you go preaching change
But you always act the same
Well I know that you never really
Let me be
And I know you that you never gonna
See me for meTold you once
Told you twice
You never listened to me
Tried to keep
Our thing nice
You dont appreciate meWork my fingers to the bone
I brought that paper home
And thats why youre aloneYou told me its over
Its over
Over and out finally figured it out
When its over

Its over
Over and out finally figured it out
And youre out of my life
