

# Fix This

## The Colourist

I tried so hard  
Keeping up, keeping my head up  
For what I thought was so right  
Guess I'm not right always  
And I thought love was a fight  
You could tear each other down  
Then come back to life  
Guess I don't live always Your set backs add up  
I was wrong about us  
Don't slam that door shut, just yet. Hear me out  
I wont sleep tonight  
You wont leave this house  
See you shaking but you wont let it out  
We can make this right  
I wont leave this house  
I will fix this somehow I tried so hard  
Lift your lie  
And I never showed you my cold feet, just my pride  
Guess it killed you always  
But I see light in your eyes  
Even though I don't know how you can up the fight  
Guess I cant win always Your set backs add up  
I was wrong about us  
Don't turn and walk out just yet Hear me out  
I wont sleep tonight  
You wont leave this house  
See you shaking but you wont let it out  
We can make this right  
I wont leave this house  
I will fix this somehow I will fix this somehow And you wont say  
And you wont say  
And you wont say we're done  
And you wont say we're done  
I won't let this go on  
I wont let this go  
And you wont say we're done  
And you wont say we're done  
I wont let this go on  
I wont let this go Hear me out

I wont sleep tonight  
You wont leave this house  
See you shaking but you wont let it out  
We can make this right  
I wont leave this house  
I will fix this somehowHear me out  
I wont sleep tonight  
You wont leave this house  
See you shaking but you wont let it out  
We can make this right  
I wont leave this house  
I will fix this somehowI will fix this somehow  
I will fix this somehow
