

Illuminate (feat. Years & Years)

Tourist

Can I hold you down tonight?
Can I unfold you?
I wanna know
These things I need to find
I can pretend it, and you can let go We always try to remind ourselves
We always feel what we've always felt
It's not the same when you're next to me
Are you hiding what you believe? In the dark I can't say
Who we are, why we've changed
In the dark I can't stay,
Let me know of my mistake
Illuminate,
Illuminate,
Illuminate But I have to tell you why, we have been fighting,
I am alone
And I know it's all (?)
I recognize it, you want to go We always try to remind ourselves
We always feel what we've always felt
It's not the same when you're next to me
Are you hiding what you believe? In the dark I can't say
Who we are, why we've changed
In the dark I can't stay,
Let me know of my mistake Light up, light up, light up for me
Light up, light up, light up for me
Light up, light up, light up for me
Light up, light up, light up for me
Light up, light up, light up for me
Light up, light up
Illuminate,
Illuminate,
Illuminate (Light up, light up, light up for me)
Light up, light up, light up for me (illuminate)
Light up, light up, light up for me
Light up, light up, light up for me (illuminate)
Light up, light up, light up for me
Light up, light up, light up for me (illuminate)
Light up, light up, light up for me
Light up, light
Illuminate
