

# Flood

## Autumn Burning

It's been raining for days  
And the water is starting to rise  
Heading for higher ground  
Find some shelter before I drown  
(before I drown)

Feet stuck in the mud, as I  
Try to run from the flood  
Waves crash over me, and I  
I can feel it

Pulling me, and washing me away  
Further and further  
Pulling me, and washing me away  
I've been pulled under by the flood

Dark clouds gather over me  
Cast a shadow as far as I can see  
There is no refuge here  
The weather is hazy, but my future is clear  
(it's so clear)

Feet stuck in the mud, as I  
Try to run from the flood  
Waves crash over me, and I  
I can feel it

Pulling me, and washing me away  
Further and further  
Pulling me, and washing me away  
I've been pulled under by the flood

Feet stuck in the mud, as I  
Try to run from the flood  
Waves crash over me, and I  
I can feel it

Pulling me, and washing me away  
Further and further  
Pulling me, and washing me away

Iâ€™ve been pulled under by the flood
