

# Down On Your Luck

## Hollis Brown

When your diamond rings, and your money from your king.  
When you realize it don't mean a thing, you're gonna look  
my way.

When the night runs cold and your down on your luck. When  
you need a friend and your down on your luck. When the  
Night runs cold and your down on your luck, baby, bet on  
me.

When your fooling around with everyone in town. When you  
realize they don't need your crown then you're gonna look  
my way.

When the night runs cold and your down on your luck. When you  
need a friend and your down on your luck. When the cold  
wind blows and your down on your luck, baby, bet on me.  
When you're fooling around with everyone in town, when you  
realize they don't need your crown, then your gonna look my  
way.
