

# Blues Man

**B.B. King**

I've traveled for miles around  
It seems like everybody wanna put me down  
Because I'm a blues man  
But I'm a good man, understand I went down to the bus station  
Looked up on the wall  
My money was too light, people  
Couldn't go nowhere at all  
I'm a blues man  
But a good man, understand The burdens that I carry are so heavy, you see  
It seems like it ain't nobody in this great big world  
That would wanna help old B  
But I will be all right, people  
Just give me a break  
Good things come to those who wait  
And I've waited a long time  
I'm a blues man but a good man, understand
